

Please do not mess with the current "NO CALL LIST" we still get unwanted calls anytime day or night. This is so frusturating when yo put in a full day at work and then go home to put in a full evening of work.....I do not like to be interrupted by these telemarketers.....!!!!????? I do not call them to bug them so why do they think that it is OK to invade on the family and evening events in a private home. Keep the "NO CALL LIST " in place. If anything, it should be more strict of telemarketers still getting their way into phone number. Leave us ALONE !!!!!!!!!!!
